SUBJECT: FCC RM-9242

REF: In the Matter of Proposal for Creation of the Low Power FM (LPFM)  
Broadcast Service

Please be advised I am in agreement with petition RM-9242 as it stands. As a concerned citizen of the United States of America, petition RM-9242 makes available an avenue of freedom that is not readily available. Also RM-9242 creates access for small business and minority small business concerns. RM-9242 is an avenue where the economically challenged, as well as a new start-up media based businesses can begin a venture by their own mercy, and not by the influencing forces of an extremely agenda focused media conglomerate or other organizations such as the National Association of Broadcasters (NAB).

I wish to express my concerns that the power levels spoken of in RM-9242 be embraced and not minimized in any way shape of form. The NAB's suggestion of a one (1) watt FM low power transmitter speak volumes as to their true hidden agenda and fears, not to mention a lack of concerns for fair competition as well as other community interests at heart. Please do not allow continued media monopolization to occur.

RM-9242 also provides opportunity for many pirate radio operators to become legitimate in their operations. Consider also the advantages of a new revenue stream for the FCC in fair fee filings. Many pirate radio operators are in passive civil disobedience to the FCC because their scatter and disorganized voices have been refused to be heard and/or respected. I implore you to pass RM-9242 as it represents a win-win scenario for all involved except those who wish to dominate and control media.

What RM-9242 provides and protects is what is most at stake, and is the fundamental question at hand. RM-9242 provides the continued existence of the uniqueness of identity that a community has. It allows for a community to retain its flavor, its identity, its heritage and an alternative avenue that prevents being shaped by the cookie-cutter media conglomerates. Please allow the many voices of the individual to retain and serve its community's flavor and deal with its own personal community concerns.

With respect,

Electronic Signature Authorization 062298-02-DMP

David M. Pujals
